

## MEMORANDUM

To: Vermont Electric Distribution Utilities

From: Susan M. Hudson, Clerk of the Board

Re: Extension of Time for Filing on Streetlighting Tariffs

Date: May 12, 2009

---

On April 15, 2009, the Public Service Board ("Board") sent Vermont electric distribution utilities a memorandum stating that the Board would like to ensure that there are no regulatory barriers to local governments using efficiency street lights (funded with federal stimulus monies or any other means), should they choose to do so. As a result, the memorandum requested that each utility review its streetlighting tariff and file certain information with the Board on or before May 15, 2009.

On May 11, 2009, the Board received notice that Efficiency Vermont has scheduled an informational workshop to assist Vermont utilities in better understanding LED and other efficient streetlighting technologies. This workshop is scheduled for May 26, 2009.

In order to allow utilities to attend this workshop, if they so choose, before making their required filings with the Board, the Board is extending the deadline for the filings to June 12, 2009.
